Dear Friends and Cattlemen,

I would like to welcome you to Salt Creek's first production sale, and share with you our story. Let me start out by saying my parents Pat and Bill Stewart bought their first farm the year I was born. When you grow up working on the family farm that grows from 200 acres to over 2,500 acres over a 40 year period, you learn the business from the ground up. My Dad taught and told me, "if you are hard headed and hard working ... you can over come any mistakes you make. My Mom taught me how to manage and take care of bottle calves to big cows, mostly with compassion.

In June of 1992, at the ripe age of 25, I talked my Dad into joining NALF. You might remember "Stewart & Son Limousin Farms." We cut our teeth on Fullblood cattle and soon developed a set of purebred cattle we were proud of, we made mistakes, but mostly had success along the way. My Dad in the fall of 1997 completely dispersed his registered cattle. I on the other hand, quietly put together a small herd on the back 40.

A change in January occurred in 2004, I met the love of my life, my wife Hollie. Marrying her has been one of my greatest accomplishments to date. Soon I met her parents, Floyd and Brenda Gauntt. And by summertime Floyd was helping bale hay and loved working with the cattle. In the fall of 2005 Floyd and I leased some land and together flushed a few of my old cows. In 2006 we decided to call ourselves "Salt Creek Cattle & Genetics, LLC." That fall we weaned our first calves, grabbed the proverbial bull by the horns, and headed to Denver for the National Western Stock Show in January of '07 to get our butts handed to us. Looking back we laugh and say, "the bigger the failure, the bigger the learning curve." There are events that change your life, that you have no control over. June of 2007 during wheat harvest my Dad passed away unexpectedly. My Mom financially was able to keep everything together and all of us worked harder than we had ever worked, never letting failure enter our thoughts. We miss Dad in so many different ways.

Earlier that year Dad and I had decided to use a purebred Limi bull called AUTO Capt Springfield 351P, on a set of Registered Angus cows we specifically bought for him. Wow! That set of Lim-Flex calves the next spring was Awesome! Those calves made sense or cents in so many ways, in how they grew, what they looked like, and what it cost to raise them.

So here we are, 4 1/2 years later, with as progressive a bull battery as we can find. And a genetically diverse set of cows, some raised and some purchased from like minded and trusted operations who take the time to create bovine that fit the main stream cattle industry.

I would like to thank all of you in advance for showing interest in our program. And let you know any animal you purchase from us, you can own with confidence.

God Bless America and You

MAGS TIMELESS COW FAMILY

MAGS Timeless is the \$25,000 half interest valued donor selected by Salt Creek Cattle Co. at a past Magness Land & Cattle Co. sale. She is one of the breed's biggest numbered cows. She has earned a breed leading set of EPD's with a 0.2 for birth, 111 for yearling weight, 38 for milk, .40 for marbling and 59 for MTI. She scanned a breed leading 7.05 for

IMF and still maintained a 12.8 for REA. This homozygous polled, homozygous black 50% Lim-Flex donor is sired by the proven and popular AUTO Dollar General 122R and from the Twin Eagles Pride 405P donor. This young donor has a picture perfect profile and is a model of a Lim-Flex female. She is extremely deep bodied, big boned, soft in her pasterns and extremely feminine up through her front end. Salt Creek Cattle Co. is highlighting this sale with her two embryo heifers. One is sired by the breed leading EBFL Ypsilanti 420Y and one sired by the past Lim-Flex national champion CALO Brickyard 902W. Buy with confidence when selecting genetics from this breed leading donor, MAGS Timeless.

MAGS Timeless, dam of Lot 2 and 3.

A FAMILY TRADITION CONTINUES ...

There are events that change your life, that you have no control over. June of 2007 during wheat harvest my Dad passed away unexpectedly. My Mom financially was able to keep everything together and all of us worked harder than we had ever worked, never letting failure enter our thoughts. We miss Dad in so many different ways.

Earlier that year Dad and I had decided to use a purebred Limi bull called AUTO Capt Springfield 351P, on a set of Registered Angus cows we specifically bought for him. Wow! That set of Lim-Flex calves the next spring was Awesome! Those calves made sense or cents in so many ways, in how they grew, what they looked like, and what it cost to raise them.

Mom, Thanks for your continued support and all you do for us!
